

European
Council on
Computing in
Construction (EC3)

2019 EC³ Conference on Computing in Construction

10-12 July 2019
Chania, Greece

 ec-3.org/conf2019

Benefits of attendance:

- Presentations & posters on latest research and advanced practice
- Best papers as keynote speeches
- Best papers in special issues of international journals
- Industry Day
- Best paper awards
- Online and digital proceedings
- Each paper with own DOI number
- Video proceedings on YouTube

Key dates and deadlines:

- 01.09.2018:** Paper submission opens
- 14.09.2018:** (Optional) Abstract Submission
- 30.09.2018:** Feedback on abstracts
- 14.12.2018:** Full paper submission deadline
- 17.03.2019:** Early-bird registration deadline

We welcome submissions from academia and from industry in all areas of Computing in the broader Architecture, Engineering, Construction, and Facilities Management (AEC/FM) industries.

Indicative topics include:

- Data Acquisition, Analysis & Simulation
- Smart Structures & Data Resilience
- Energy Modelling & Monitoring
- Product and Process Modelling
- Systems Engineering
- Virtual and Augmented Reality
- Building Information Modelling
- Technology and Innovation Management
- Lean Construction
- Model-based Management Tools and Systems
- Blockchain and Distributed Ledger Technology
